Communication

Re: Item 7.1 City of Markham Coyote Response Presentation

Email from: Bernice Royce

Dated: May 27, 2021

To the members of the General Committee I would like to applaud the city's recommendations to enable both residents and coyotes to co exist

Non feeding of wildlife should be zero tolerance and education of the public at large is a real priority not just re coyotes but wildlife generally

Markham generally steps up to protect both its residents and wildlife and I trust this will be another instance where it does so

Thank you for your attention and trust this will be of value at the upcoming General Committee meeting

Regards

Bernice Royce
