ON CITY DATA**

This most recent certification marks the third year that Markham has been certified under WCCD's ISO 37120 Standard under the Data for Canadian Cities Project (DCCP). We look forward to continued partnership with your team as you further contribute to the data under ISO 37120, and as your municipality considers operationalizing ISO 37122: Indicators for Smart Cities, and ISO 37123: Indicators for Resilient Cities.

Markham is part of a thriving, global city data collaborative – underpinned by a dedication to harnessing standardized, globally comparable and independently verified, city-level data. It is only through the commitment and leadership of cities like Markham that we can continue building a global network of data-driven cities committed to building a more resilient future for their citizens.

Sincerely,
