MEMORANDUM

TO: **Heritage Markham Committee**

FROM: **Evan Manning, Senior Heritage Planner**

DATE: **November 9, 2022**

SUBJECT: **Alterations to a Part-IV Designated Property**
9392 Kennedy Road
The Thomas Lownsborough House

FILE: 22 251336 SPC

Property/Building Description: One-and-a-half storey dwelling constructed in 1880 as per MPAC records

Use: Residential

Heritage Status: 9392 Kennedy Road is designated under Part IV of the *Ontario Heritage Act*.

Application/Proposal

- The City has received a Site Plan Control (SPC) application for the property municipally-known as 9392 Kennedy Road (the "subject property" or the "property") for a three-storey rear addition to the on-site heritage building;
- The heritage building is proposed to be relocated slightly westward to accommodate a future potential widening of Kennedy Road while the rear tail of the heritage building is proposed to be removed to accommodate the proposed addition. Vehicular access to an attached garage is proposed from a privately-owned right-of-way located behind the addition;
- Development applications related to the subject property were last considered by Heritage Markham at its meetings in February 2015 and July 2016. These applications concerned the relationship of the adjacent townhouse development with the heritage building, namely its siting and design. Heritage Section staff recommended, and the Committee supported, the standard heritage approval conditions for the subject property, namely designation under Part IV of the *Ontario Heritage Act*, submission of a Conservation Plan, agreement to enter into a Heritage Easement Agreement, and the installation of a Markham Remembered plaque.

Background

Context

- The subject property is located on the west side of Kennedy Road between 16th Avenue to the south, and Bur Oak Avenue to the north. Bordering the subject site to the north is a surface parking lot associated with St. Philips On-the-Hill Anglican Church while a townhouse complex is located to the south and west of the subject property. This complex, consisting of a series of three-storey buildings, was the subject of the aforementioned Staff reports considered by Heritage Markham in 2015 and 2106. On the east side of Kennedy Road is the Bethesda Lutheran Church Cemetery.

Heritage Resources

- The subject property was designated under Part IV of the *Ontario Heritage Act* in 2020. A copy the Statement of Significance from designation By-law 2022-72 is included as Appendix C of this memo;
- The Bethesda Lutheran Church Cemetery is the only municipally-recognized heritage resources considered *adjacent* to the subject property as defined in the Official Plan (2014).

Staff Comment

Demolition of the Rear Tail and Relocation

- Heritage Section staff ("Staff") have no objection to removal of the rear tail as it is not identified nor does it contain any elements that are identified as a heritage attributes within the property's Statement of Significance;
- Staff also have no objection to the relocation of the heritage building as it will provide a setback more typical of residential buildings, and will allow for the reinstatement of a front veranda (as previously recommended by Heritage Markham).

Restoration Scope

- Staff have reviewed the elevations provided by the applicant and have identified refinements to ensure historical accuracy in the restoration scope. Items such as material selection, window location and configuration, and the design of the veranda have been identified as areas where revisions are required.

Proposed Addition

- Staff have no objection to the proposed addition as it maintains legibility of the heritage building as a visually independent volume while adopting a compatible roof profile and material composition;
- Staff have requested further information on the proposed cladding material immediately adjacent to the west (rear) elevation of the heritage building, and have encouraged the substitution of the glazed balcony guards along the rear elevation of the proposed addition for a translucent or opaque material to reduce the risk of bird strikes.

Suggested Recommendation for Heritage Markham

THAT Heritage Markham has no objection to the design of the proposed three-storey addition to 9392 Kennedy Road and that further review of the Site Plan Control application, and any other development application required to approve the proposed development, be delegated to Heritage Section staff.

STATEMENT OF SIGNIFICANCE

Thomas Lownsbrough House

9392 Kennedy Road
c.1845

The Thomas Lownsbrough House is recommended for designation under Part IV of the Ontario Heritage Act as a property of cultural heritage value or interest, as described in the following Statement of Significance.

Description of Property

The Thomas Lownsbrough House is a one and a half storey frame house located on the west side of Kennedy Road, an area under urban development, a short distance north of 16th Avenue. The house faces east and is on its original site.

Historical or Associative Value

The Thomas Lownsbrough House is of historical or associative value as the c.1845 home of Thomas Lownsbrough, an English-born shoemaker who was part of the Hunter's Corners community north of Unionville while a tenant of John Hunter, and later his daughter, Ada Naomi Hunter, from c.1845 to 1891. In 1892, Miss Hunter sold the property to Reverend Henry B. Owen, Rector of St. Philip's Anglican Church, next door to the north. The Reverend Owen served the church from 1891 until his death in 1899.

Design or Physical Value

The Thomas Lownsbrough House is of design or physical value as a representative example of a tradesman's dwelling in a vernacular version of the Gothic Revival style commonly referred to as a Classic Ontario centre gable cottage. It is also a representative example of an evolved building, which started as a modestly-scaled one storey vernacular tradesman's dwelling in the mid-19th century that was later raised to one and a half storeys, perhaps in the 1870s.

Contextual Value

The Thomas Lownsbrough House is of contextual value as one of a few cultural heritage features remaining from the historic community of Hunter's Corners.

Significant Architectural Attributes

Exterior character-defining attributes than embody the cultural heritage value of the Thomas Lownsbrough House include:

- Overall form of the one and a half storey, rectangular plan main block;
- Fieldstone foundation;
- Historic cladding, if present, under modern siding materials;
- Medium- pitched gable roof with projecting, open eaves, and steep centre gable on the front wall;
- Asymmetrical placement of the front door and window openings;
- Size and placement of existing door and window openings;
- Former window opening in front gable, currently covered by modern siding materials.
