- 1.2 The fee for the *pre-application review* of applications shall be \$100. This fee is non-refundable and a credit for this fee will be applied to the total building *permit* fee.

#### 2. CALCULATION OF PERMIT FEES

- 2.1 *Permit* fees shall be calculated on the basis of:
  - 2.1.1 the flat rate where indicated in Column 5 of Table 1 of this Schedule;
  - 2.1.2 the product of the applicable fee multiplier in Column 4 of Table 1 of this Schedule and the related floor area or other measure specified in Column 3; or
  - 2.1.3 where a fee is not listed in Table 1, \$40 for each \$1,000 or part thereof of the construction value prescribed by the chief building official.
- 2.2 Except for classes of *permits* subject to flat rates, fees shall be based on the appropriate measure of the floor area of the project.
- 2.3 Except where otherwise exempt, in addition to the fees calculated according to Subsections 2.1 and 2.2 fees shall also be assessed according to the number of plumbing fixtures and the size of supply piping and drainage piping as applicable.
- 2.4 Section B of Table 1 of this Schedule applies where the scope of work does not affect any exterior wall or exterior roof assembly in existing construction.
- 2.5 The base fee charged for the review of a *certified model* with one elevation shall be calculated using a fee multiplier equivalent to that applicable to Single or Semi Detached Dwellings determined in accordance with Subsections 2.12 to 2.15 of this Schedule. Where a certified model includes an accessory apartment, the fee listed in Table 1, Section A, line A8 shall apply to the gross floor area of the dwelling unit and the accessory apartment. Optional items will incur supplemental review fees as follows:
  - 2.5.1 \$125 for each elevation
  - 2.5.2 \$125 for corner upgrade / rear upgrade
  - 2.5.3 \$125 for each alternate floor layout
  - 2.5.4 \$125 for walk-out condition
  - 2.5.5 \$125 for look-out condition
- 2.6 Where a revision to a repeat permit includes a change of house model, an additional fee of \$300 plus the fee in Table 1 corresponding to new home construction for any resulting increase in floor area shall be payable. Where the floor area is reduced, no refund applies.
- 2.7 Where an application for a new dwelling unit listed under Table 1, Section A, line A6, A7 and A8 contains an accessory apartment, the fee listed in Table 1, Section A, line A8 shall apply to the gross floor area of dwelling unit and the accessory apartment.
- 2.8 In addition to the fees calculated in accordance with Table 1 paid at the time of building *permit* application, fees for *supplementary submissions* and

- revised submissions shall be calculated at \$125/hour spent determining compliance with the Building Code, applicable law and submission standards. Supplementary submission fees are nonrefundable.
- 2.9 Where *supplementary submissions* or *revised submissions* include certification of applicable law compliance, and in which compliance or applicability was incorrectly declared at the time of *permit* application, a fee of \$300 for each applicable law certification shall apply.
- 2.10 Where an application form other than an applicable law checklist is required to be revised to reflect incorrectly declared information, a fee of \$250 applies.
- 2.11 In addition to the fees calculated in accordance with Table 1, each application for consideration of an alternative solution shall be accompanied by a non-refundable fee of \$3,000 for multiple-unit residential projects and non-residential projects (per building) and \$800.00 for low rise residential (including singles, semis (per unit), townhouse (per unit), decks, porches, and sheds). Where a *supplementary submission* is made for an alternative solution, a flat fee of \$250.00 will apply and is due at the time of resubmission.
- 2.12 When calculating fees based on floor areas, floor area is measured to the outer face of exterior walls and to the centreline of party walls or demising walls, except when calculating interior partition work. When measuring floor area for interior partitioning, corridors, lobbies, washrooms, lounges, and other similar facilities are to be included and classified according to the major occupancy classification for the floor area with which they are associated. Where these areas are constructed in a shell-only building, fees shall be calculated at the applicable partitioned rate in Table 1.
- 2.13 When measuring floor area, no deductions shall be allowed for floor openings required for such facilities as stairs, elevators, escalators, shafts and ducts. Interconnected floor spaces and atriums above their lowest level may be deducted from measured floor area.
- 2.14 Where incorporated with an application for a class of dwelling described in Rows A6, A7 or A8 of Table 1, no additional fee is required for decks, fireplaces, unfinished basements, heating or plumbing systems.
- 2.15 Where incorporated with an application for a class of permit described under Section A and B of Table 1, no additional fee shall be levied for the scope of work described in Sections D and G of Table 1 that form part of the work proposed under the application.
- 2.16 For any permit application for a class of permit described under Section B of Table 1, floor area used for the calculation of fees shall be the lesser of:
  - 2.16.1 the area contained within a single rectangle encompassing all of the proposed work, or
  - 2.16.2 the actual area of the tenant space;
- 2.17 The occupancy classifications used in this By-law are based on the *Building Code* occupancy classifications. For mixed occupancy classifications, the total payable fee shall be calculated by applying the fee multiplier for each occupancy prescribed in Table 1 to the floor area measured for each individual occupancy and taking the sum of the fees calculated for each occupancy.
- 2.18 For *permits* for change of use, the fee multiplier for the proposed occupancy will be applied to the entire floor area subject to the change of use.
- 2.19 Where a change of use *permit* is denied, the fees paid may be credited to a building *permit* which incorporates the construction required to accommodate the change of use.

- 2.20 Except for temporary buildings on construction sites for offices, fees for temporary buildings, including tents, stages and bleachers, apply to buildings erected for less than 12 weeks.
- 2.21 The permit fee for the remediation, restoration, or demolition of premises used for the production of illicit substances is \$5,000. Administrative fees in accordance with Section 5 of this Schedule are in addition to this fee.
- 2.22 For phased non-housing projects, in addition to the *permit* fee for the complete building, an additional fee of \$1000 shall be payable for each phase not applied for at the time of the initial *permit* application.
- 2.23 For *conditional permits*, the conditional permit fee shall be the total *permit* fee for the proposed construction plus a non-refundable additional 10% of that fee.
  - 2.23.1 A minimum additional fee of \$3,500 and a maximum additional fee of \$6,500 applies to *conditional permits*.

  - 2.23.3 Where there is an outstanding Order to Comply at the time of conditional permit extension, the non-refundable renewal fee will be equal to the original *conditional permit* fee plus 50%.
  - 2.23.4 In addition to the non-refundable fee, a letter of credit is required for every *conditional permit* or phased *conditional permit*.
- 2.24 Pursuant to Section 10 of this by-law, where an application is made using a Registered Code Agency appointed under a service agreement with the Chief Building Official, and those services are fully paid for by the applicant, the applicable fee shall be reduced by 20% at the time a complete application is filed with a Plan Review Certificate as defined by the *Building Code Act*.
- 2.25 As deemed necessary by the *Chief Building Official* where an outside consultant is engaged to provide a third party review of a document or drawing submitted with a permit application, alternative solution proposal or partial occupancy permit, the consultant's fees are to be fully paid by the *applicant*.
