

Special General Committee - Bylaw Services Workshop

Workshop Outline

Juanita Gledhill

May 3, 2024

Welcome Members of the Public

- Thank you for investing your time and interest in local government
- As a reminder, there will not be any delegations taken as this is a working session for Council members
- Be assured there will be an opportunity in the Fall for delegations when staff bring the Bylaw Strategy to General Committee and Council
- We respectfully ask that you not engage in any of the working session table discussions today

- Washrooms – just outside the main door
- Cellphones – on silent
- Refreshments – will be available throughout workshop however there will not be a formal break
- As there will be 7 concurrent tables of discussion, please stay on topic and on time
- And...if there is any final input you wish you had time to add – there are post it notes on each table you can leave behind – please note which table

- Public Survey: Bylaw enforcement services and residential infill development: Survey completed December 2022 – over 1500 responses received
- External Bylaw Services Review Report received January 2023
- Bylaw Enforcement Service Delivery Review – Presentation To General Committee – June 6, 2023
- Council members pre-workshop consultation opportunity offered March-April 2023

Today is about gathering input on our table topics from a macro lens

Today is not about operational considerations such as staffing levels or budget allocations

Today is to gather your input regarding where you wish to see either proactive enforcement or compliance driven enforcement to achieve:

A Safe Community and Keep Markham Beautiful

AND at the conclusion, have you share with us of which these topics are the **top 3 priorities from your perspective** – I will be handing out individual pages to each member of Council to note their 1-3 rankings

The input you provide today will help **inform the Bylaw Strategy** that staff will develop and bring

- Everyone should now be seated at their starting table topic
- Rotations will be in 15-minute intervals – I will give a 5 minute remaining call out and final 1 minute call out
- When time is called we ask the Council members to move to the next Table Topic, all other table attendees remain at their starting tables
- Each table has a scribe who will be taking notes on the Council member comments only – it is your workshop and it is your input we are seeking today
- We have a Moderator for each table – they are members of the Bylaw Services and thus will also serve as the table subject matter expert – their role is to keep the discussion on the table topic
- The department representatives will provide context
