Dear Mayor Scarpitti and City Councillors,

I am reaching out to voice my concerns about the Bahá'í project and the significant negative impact it will have on our environment and community.

The development threatens local wildlife habitats, disrupting the natural balance that makes our area unique. Additionally, the expansion—including a large venue—comes with a severe parking shortfall of 325 spaces. This will create traffic congestion, overflow parking in residential streets, and an overall strain on our neighborhood's infrastructure. These changes go against the principles of responsible urban planning and a strong, connected community.

I urge you to take these concerns seriously and stand with us in protecting our environment and neighborhood from this disruptive project. Your support in preserving the character and livability of our community would be greatly appreciated.

Sincerely,

J Wong
