To: Industry Canada

John McCallum(MP, Markham - Unionville)

Bell Canada

City of Markham

This letter is to outline that we, the residents of Unionville, were not sufficiently notified by BELL Canada nor the City of Markham, regarding BELL Canada's proposal to install a 14.9 meter, Cellular Telecommunication Tower at 100 Carlton Road, Unionville. As outlined in the BELL Canada pamphlet, all residences within a 120 meter radius of the proposed site were to be notified. After surveying neighbors within this radius, we find that distribution on this information was NOT sufficient and not complete. Additionally, the information session held at the Angus Glen Community Centre was NOT outlined as a session in which the community was given an opportunity to vote AGAINST such proposal, which makes the night null and void in terms of public opinion gathering.

As this tower is directly adjacent to William Berczy Public School (a school with a population of 700 students from Kindergarten to Grade 8) and amongst our high density residences area, we are hereby vehemently opposing this proposal.

We, over 600 residents in this neighborhood, are here to present our signed petition forms in opposition. We strongly urge Industry Canada, Federal Government and the City of Markham to revoke Bell Canada's proposal for this development.

We are looking forward to your response.

Sincerely,

Concerned Unionville Residents

# Petition

To :

Frank Scarpitti ( City Mayor)

Michael Fry (city planner)

Shehryar Khan (FONTUR international /Bell Canada)

Don Hamilton (Councillor)

Jim Jones (regional councillor)

Toronto District Office

Michael Chan

We, the undersigned, are firmly opposed to Bell Canada's proposal of installing a 14.9 metre Telecommunications Tower located at 100 Carlton Road Markham, Ontario and urge Markham Council to issue a rejection of this proposal.
