## SCHEDULE "A"

### CLASSES OF *PERMITS*, FEES AND REFUNDS

#### 1. CALCULATION OF *PERMIT* FEES

- 1.1 *Permit* fees shall be calculated using:
  - 1.1.1 The flat rate where indicated in Column 5 of Table 1 of this Schedule;
  - 1.1.2 the product of the applicable fee multiplier in Column 4 of Table 1 of this Schedule and the related floor area or other measure specified in Column 3, or
  - 1.1.3 where a fee is not listed in Table 1, a fee shall be paid in the amount of \$12 for each \$1000 or part thereof of the construction value prescribed by the chief building official.
- 1.2 Except for classes of *permits* subject to flat rates, fees shall be based on the appropriate measure of the floor area of the project.
- 1.3 Except where otherwise exempt, in addition to the fees calculated according to subsections 1.1 and 1.2 fees shall also be assessed according to the number of plumbing fixtures and the size of supply piping and drainage piping as applicable.
- 1.4 Fees charged for the review of *certified models* shall be calculated using a fee multiplier equivalent to that applicable to Single or Semi Detached Dwellings determined in accordance with subsections 1.8 to 1.10 of this Schedule.
- 1.5 In addition to the fees calculated in accordance with Table 1 paid at the time of building *permit* application, fees for *supplementary submissions* and *revised submissions* shall be calculated at \$80.00/hour spent determining compliance.
- 1.6 Where *supplementary submissions* or *revised submissions* include certification of applicable law compliance, which compliance or applicability was incorrectly declared at the time of *permit* application, a fee of \$250.00 for each applicable law certification shall apply.
- 1.7 In addition to the fees calculated in accordance with Table 1, each application for consideration of an alternative solution shall be accompanied by a non-refundable fee of \$1000 or 10% of the permit fee, whichever is lesser.
- 1.8 When calculating fees based on floor areas, floor area is measured to the outer face of exterior walls and to the centreline of party walls or demising walls, except when calculating interior partition work. When measuring floor area for interior partitioning, corridors, lobbies, washrooms, lounges, and other similar facilities are to be included and classified according to the major occupancy classification for the floor area with which they are associated. Where these

areas are constructed in a shell-only building, fees shall be calculated at the applicable partitioned rate in Table 1.

- 1.9 When measuring floor area, no deductions shall be allowed for floor openings required for such facilities as stairs, elevators, escalators, shafts and ducts. Interconnected floor spaces and atriums above their lowest level may be deducted from measured floor area.
- 1.10 Where incorporated with an application for a class of dwelling described in Rows 6 or 7 of Table 1, no additional fee is required for decks, fireplaces, unfinished basements, attached garages, heating or plumbing systems.
- 1.11 Where incorporated with an application for a class of permit described under Section A and B of Table 1, no additional fee shall be levied for mechanical, fire protection or green technology systems that form part of the work proposed under the application.
- 1.12 For any permit application for a class of permit described under Section B of Table 1, floor area used for the calculation of fees shall be the lesser of :
  - 1.12.1 the area contained within a single rectangle encompassing all of the proposed work, or
  - 1.12.2 the actual area of the tenant space;
- 1.13 The occupancy classifications used in this By-law are based on the *Building Code* major occupancy classifications. For mixed occupancy classifications, the total payable fee shall be calculated by applying the fee multiplier for each occupancy prescribed in Table 1 to the floor area measured for each individual occupancy and taking the sum of the fees calculated for each occupancy.
- 1.14 For *permits* for change of use, the fee multiplier for the proposed occupancy applies.
- 1.15 Where a change of use *permit* is denied, the fees paid may be credited to an alteration *permit* which incorporates the construction required to accommodate the change of use.
- 1.16 Except for temporary buildings on construction sites for office or sales purposes, fees for temporary buildings, including tents, apply to buildings erected for less than 30 days.

## 2. MINIMUM FEE

- 2.1 Except where a flat fee applies, the minimum fee for any permit application for work proposed in Group C residential occupancies in Sections A, B, D and E of Table 1 shall be \$100;
- 2.2 Except where a flat fee applies, the minimum fee for any permit application for work proposed in Group A, B, D, E and F occupancies in Sections A, B, D and E of Table 1 shall be \$500.

## 3 CALCULATION OF REFUNDS

- 3.1 Pursuant to section 7 of this By-law, refunds shall be calculated as follows:

Refund = [*Permit Fee Paid*] – [Total *Permit Fees Payable* x % *Permit Fee Earned*]

- 3.2 The proportion of the total *permit* fee payable is earned according to the following schedule:

- 3.2.1 10% if administrative functions only have been performed;
- 3.2.2 20% if administrative functions and zoning review have been performed;
- 3.2.3 50% if administrative functions, zoning review and all or part of the *Building Code* review have been performed; and
- 3.2.4 60% if all administrative functions and reviews have been completed and the building permit has been issued or is available to be issued.

- 3.3 No refund is available for:

- 3.3.1 Flat fees prescribed in Column 5 of Table 1;
- 3.3.2 minimum fees prescribed in subsections 2.1 and 2.2 of this Schedule;
- 3.3.3 fees in the amount of \$500 or less;
- 3.3.4 where a permit is revoked, except where a permit is issued in error, or the applicant requests revocation no more than six months after the permit is issued, or,
- 3.3.5 applications or permits where construction or demolition has commenced

## 4 ADMINISTRATIVE FEES
