NEW/OTHER BUSINESS

21. NEW/OTHER BUSINESS INFILL AND RENOVATION PROJECTS (10.0)

Councillor Rea addressed the Committee regarding infill projects that are being built as renovation projects. She indicated that homes are being demolished with the exception of a 5 feet piece of wall below grade and being completely rebuilt. Councillor Rea stated concerns that grading, landscaping plans and upgrades to services are not required when it is considered a renovation.

Councillor Rea believes that these so called renovations are inappropriate and do not conform with the City's Official Plan that states new infills must maintain the characteristics of the neighbourhood. It was noted that local residents are complaining about the mess on the streets and sidewalks, foundations being poured contrary to the drawings that were submitted, working outside of permitted hours.

The Committee suggested that staff bring a memo back to the next Development Services Committee meeting outlining the following:

- When is a renovation no longer considered a renovation
- Difference between an infill and renovation (include any possible solutions)
- When a home is being built within the zoning by-law, how does the City ensure the building is appropriate for the area prior to the building permits being issued
- Investigate if the City's Nuisance By-law can be used to deal with some of the resident complaints relative to some of the renovation projects
