

COLLECTIONS MANAGEMENT BRIEF
February 21, 2018

The Collections Management Committee met on February 21, 2018 for review of artifacts selected for deaccession from the collection of Markham Museum that will be presented to the City of Markham through the Friends of Markham Museum.

Artifacts for Discussion:

Members of the committee were presented by museum staff with a comprehensive list of artifacts from the Strickler Barn that are slated for deaccession (indicated by “NO” pass). These assessed artifacts were discussed individually in detail by committee members and museum staff to ascertain that the items should be deaccessioned. The list also includes artifacts that are to remain within the collection.

Approval:

Motion by Lorne Smith, seconded by Bill Crothers that the list (attached) of artifacts for deaccession be submitted to the Friends of the Markham Museum for further approval, with final submittal to the City of Markham. **Motion carried.**

Closing comments:

Thanks were expressed to Tammy Law and Janet Reid for the professional submittal of the archival material that was reviewed.

Collections Review will continue at our next meeting, scheduled for March 21, 2018.
