[Report](#)**

Jim Baird, Commissioner of Development Services addressed the Committee and provided some background information relative to the King David Inc. proposed applications.

Staff delivered a PowerPoint presentation providing background information and summarizing the proposed recommendations outlined in the supplementary report King David Inc.

There was discussion regarding the ownership of the watercourse and stormwater management pond. The Committee discussed the proposed belvedere and proposed lake within the Cathedral community. It was noted that there are outstanding issues with the Toronto Region Conservation Authority (TRCA) with respect to the approval of the proposed lake. Deputy Mayor Jack Heath advised that he has requested for a chronology report from the TRCA related to the natural heritage area within this Cathedral community (including the proposed lake) in the last ten (10) years.

The Committee discussed the proposed Terms of Reference for the Cathedral Community Working Group and suggested that draft plan of subdivision Phase 1 should also be included as part of the Terms of Reference. The Committee also suggested that the completion of the proposed lake and belvedere be part of the conditions of subdivision for Phase 1.

Bob Forhan, RJ Forhan and Associates delivered a PowerPoint presentation relative to the draft plan phasing strategy and phase 1 proposal for King David Inc.

The Committee inquired about the cathedral and the parking for when it is opened. Mr. Forhan advised that there is internal work that needs to be completed prior to the cathedral being opened and that there is a temporary area for parking during the construction process.

Emily Lui, Markham resident addressed the Committee with respect to the King David draft plan of subdivision approval, as submitted and for Official Plan/Secondary Plan and Zoning By-law amendments for Phase 1 and spoke in opposition.

Patrick Chan, Markham resident addressed the Committee regarding the King David draft plan of subdivision approval, as submitted and for Official Plan/Secondary Plan and Zoning By-law amendments for Phase 1 and spoke in opposition.

Paul Tiffenbach, Markham resident addressed the Committee with respect to the proposed Cathedral Community Working Group inquiring about the composition of the group.

Cecilia Mui, Markham resident addressed the Committee with respect to the King David draft plan of subdivision approval, as submitted and for Official Plan/Secondary Plan and Zoning By-law amendments for Phase 1 stating concerns and suggesting that the completion of the proposed belvedere be part of the Phase 1.

Ria Jayaram, Markham resident addressed the Committee regarding the existing cathedral community suggesting that there is a lack of public parks and outdoor open space for children.

Mayrose Gregorios, Markham resident addressed the Committee with respect to the proposed Cathedral Community Working Group and stated concerns with the proposed Terms of Reference. She spoke in opposition to the King David draft plan of subdivision approval, as submitted and for Official Plan/Secondary Plan and Zoning By-law amendments for Phase 1.

Wing Liu, Markham resident addressed the Committee regarding the King David draft plan of subdivision approval, as submitted and for Official Plan/Secondary Plan and Zoning By-law amendments for Phase 1 and stated concerns such as lack of parking for the cathedral. She suggested that all deficiencies should be completed prior to the approval of Phase 1.

Bill Wong, Markham resident addressed the Committee with respect to the King David draft plan of subdivision approval, as submitted and for Official Plan/Secondary Plan and Zoning By-law amendments for Phase 1 and stated concerns with the increase in building height and lack of schools and public parks.

Charles Chambers, Markham resident addressed the Committee with respect to the proposed Cathedral Community Working Group and spoke in opposition. He stated concerns relative to the current cathedral community. Mr. Chambers inquired why the residents were not advised about outstanding issues with the TRCA and why the proposed belvedere has not been completed.

Jim Kwan, Markham resident addressed the Committee regarding the King David draft plan of subdivision approval, as submitted and for Official Plan/Secondary Plan and Zoning By-law amendments for Phase 1 and stated concerns. His concerns included potential increase in traffic, lack of greenspace and insufficient parking for the cathedral.

Jeffrey Pariag, Markham resident addressed the Committee regarding the proposed Cathedral Community Working Group and stated concerns with the proposed Terms of Reference. He also spoke in opposition to increased building height within the Cathedral community.

Wilfred Yu, Markham resident addressed the Committee regarding the existing cathedral community inquiring why the proposed fountain was never approved. He also inquired about the proposed arboretum.

Tammy Armes, Markham resident addressed the Committee with respect to the King David draft plan of subdivision approval, as submitted and for Official Plan/Secondary Plan and Zoning By-law amendments for Phase 1 and spoke in opposition. She suggested that all the outstanding deficiencies should be part of the subdivision agreement for Phase 1.

Shant Kouyoumdjian, Cathedral Ratepayers Association addressed the Committee regarding the proposed Cathedral Community Working Group and spoke in opposition. He believes that there are a number of outstanding deficiencies and missing amenities within the existing cathedral community. Mr. Kouyoumdjian is suggesting that the applicant correct the deficiencies and beautify the existing community prior to receiving any further approvals for future phases.

There was discussion regarding advantages and challenges relative to the proposed Cathedral Working Group. The Committee suggested that the recommendation regarding the establishment of a Working Group be deleted from the proposed staff recommendation. The Committee also suggested that staff report back to the Development Services Committee meeting on June 17, 2014 outlining conditions, timelines and commitments for the King David Inc. applications and responding to the deficiencies outlined in the letter from Shant Kouyoumdjian.
