Subject: FW: Oppose Letter

Dear Sir / Madam,

I am writing this letter to oppose against the construction of the telecommunications tower and its associated equipment which will be located at the northeast corner (of the intersection east of Woodbine Ave and north of 16th Ave) of the City of Markham.

I am very concerned about the negative impact this telecommunications tower will have on our health as this tower will emit harmful radio frequencies that our bodies may not withstand. Please stop the construction on the proposed land before it is too late! On the other hand, why not build the tower in a more secluded area so that no one will be harmed by these radio frequencies.

Sincerely,

Lihua Gu

Subject: Construction of Bell Telecommunications Tower at 9253 Woodbine Avenue

Dear Mr. Ho,

I am the resident of the city of Markham

Regarding to the construction of bell telecommunications tower at 9253 woodbine Avenue, we would like to express our concern to that will potentially bring more health issues to the residents whom are living close by, as the result of the effect of strong radio frequencies and radiations.

Please kindly dismiss the project and stop it as soon as possible.

Best regards,
Jan Ng

Message:

Dear Councillor Ho:

As a parent, I am very concerned and do not support the proposal to build a monstrous cell tower near Woodbine and 16th. This area is mainly residential with a lot of families raising their young children and studies have shown the negative impact of magnetic fields to humans even more so, the vulnerable children. I realize that this brings revenues to the involved parties. Are there alternative solutions to this idea? Should these cell towers be built so closely to homes, schools, daycares in the area. If I'm not mistaken, another cell tower is also being proposed near Carlton and Village Parkway. What can our elected officials do to stop this? Looking forward to hearing from you.
Sincerely,
C Gordon

Subject: Monopole telecommunications towers and health concerns for the community in Markham

Dear Sir/Madam,

I am a resident in Markham. We recently learnt about the possibilities of construction for a few monopole telecommunication towers in various areas in Markham, which could cause a very high risk of health concerns to us and everyone in the community. The areas involve in:

1. Woodbine Ave & 16th Ave (20 M high)
2. East of Village Pkwy & north of Carlton Rd which is also beside William Berczy – a public school
3. Another 40 M high telecommunication tower for Wind Mobile was also permitted between the 16th ave & Bur Oak Ave – east of Kennedy Rd.

We strongly oppose to these construction plans in building monopole telecommunication towers in Markham which is so close to the residential areas and extremely high risk of health concerns to every of us. Please kindly take in consideration of our health concerns and cancel the plans.

Thank you for looking into this matter.

Regards,
Bonita

Subject: Opposing the construction of a Bell Telecommunications Tower at 9253 Woodbine Avenue

Dear Mayor Frank,

We are writing to oppose strongly to the proposed construction of a Bell telecommunication tower with associated equipment cabinets to be located at the north-east corner of the Intersection of Woodbine Avenue and 16th Avenue in our City of Markham.

We are very concerned about the known negative impact that such a set-up, which constantly emits/transmits strong radio frequencies, would have upon human residents and pets in the proximity. Whilst there may still be some arguments as to the severity of the impact, prevention is always by far a better strategy.

We are not opposing blindly to progress and development in our City but there must be industrialized zones not too far away with a lower residential population making it much more appropriate for such a site.

Yours truly,
Anna and Bernard CHEUNG

Dear Mr. Ho,

It is my understanding that the Public Meeting for the above issue on Nov. 5, 2013 was cancelled.

There is a lot of residences, shop owners and frequent customers of the Cachet Centre shopping plaza who are opposite to the building of this telecommunication tower. We would like to get an update of the current situation on this proposed project.

Please also advise why was the meeting being cancelled on Nov. 5th. As this is a very important issue concerning the health of not just the residence in the area but also toddlers, school kids and our youth in secondary school. We would like to request for a public meeting in the evening so more residences/parents can attend.

Looking forward to your early reply.

Best Regards

Please stop the construction on the proposed land before it is too late! On the other hand, why not build the tower in a more secluded area so that no one will be harmed by these radio frequencies.

我寫這封信是強烈表達本人反對貝爾移動電話公司即將興建一座高 20 米的電訊發射塔, 選址位於萬錦市內人口密集, 大型購物商場附近的 Woodbine Avenue 的東面及 16th Avenue 的東北面。

這會為我們的社區帶來極負面影響, 這座高 20 米的電訊發射塔, 如此接近民居. 它會發出極高的無線電頻率, 是會嚴重影響我們及孩子的健康, 這是將會預見的, 到期時才補救將會為其已晚; 為防止它的發生, 本人要求立即停止為其提供現址的興建計劃, 及改選遠離民居的地方。

Sincerely,

Stella Zhang

Subject: Bell tower

Dear Sir / Madam,

I am writing this letter to oppose against the construction of the telecommunications tower and its associated equipment which will be located at the northeast corner (the intersection east of Woodbine Ave and north of 16th Ave) of the City of Markham. I am very concerned about the negative impact this telecommunications tower will have on our health as this tower will emit harmful radio frequencies that our bodies may not withstand. Please stop the construction on the proposed land before it is too late! On the other hand, why not build the tower in a more secluded area so that no one will be harmed by these radio frequencies?

Sincerely,

Gary Gao
