**7. RECOMMENDATION REPORT
APPLICATION FOR SITE PLAN CONTROL APPROVAL
RULAND PROPERTIES INC. (THE REMINGTON GROUP)
PROPOSED OFFICE BUILDING NORTH WEST QUADRANT
OF BIRCHMOUNT ROAD AND HIGHWAY 407
MARKHAM CENTRE
(SC 13 125581) (10.6)
[Report](#)**

Jim Baird, Commissioner of Development Services gave an overview of the 12 storey office tower proposal in the downtown area.

Randy Peddigrew of Remington Group and Sheldon Levitt of Quadrangle Architects provided a handout and gave a presentation of this “gateway” development, including a master plan aerial view, elevations, streetscape renderings, site plan details, sustainability features, bird-friendly measures, and retail component. Surface parking will be provided initially due to the restrictive time frame for the tenant's completion target date, and as the block develops in the future structured parking will be built. The pedestrian-friendly components of the project and site's connectivity with the downtown core were highlighted.

The Committee discussed the progress of Birchmount Road, the prominence of the bike racks, waste collection details, the employee shuttle service from the subway, bird strike dangers due to the proximity of the Rouge, light pollution and light sensors within the building, gender-neutral washroom facilities, employment opportunities for Markham residents, potential connectivity between buildings within the larger project via tunnels or bridges, accessibility, outdoor cafés, and the preference for underground parking.

Moved by: Councillor Don Hamilton

9. NEW BUSINESS
VISITOR PARKING AND SNOW STORAGE
IN HIGH DENSITY RESIDENTIAL AREAS (10.0)

The Committee consented to new business from Councillor Colin Campbell.

Councillor Colin Campbell discussed concerns regarding the lack of visitor parking spaces, on-street parking, and snow storage areas in high-density lane-based developments such as Cornell, and requested that the requirements be reviewed for future applications. Staff advised of the standard parking requirement of two spaces per unit in the Cornell area. There is no requirement for additional visitor parking as it was intended to be provided via on-street parking; however, residents objected to on-street parking and this option was removed by Council. It was suggested that reinstatement of on-street parking or increased use of temporary parking permits may assist with this issue. Concerns and solutions regarding snow clearing and snow storage areas were discussed. Box Grove was also identified as a problem area.

A Committee member suggested that the location of sand pads and waste receptacles in parks and public areas be reviewed with respect to the proximity to houses. The Commissioner of Community Services will work with the Councillor on this issue.

Councillor Colin Campbell advised that he will report back to the Committee following discussions with staff.
