Alden Road and 14th
Avenue

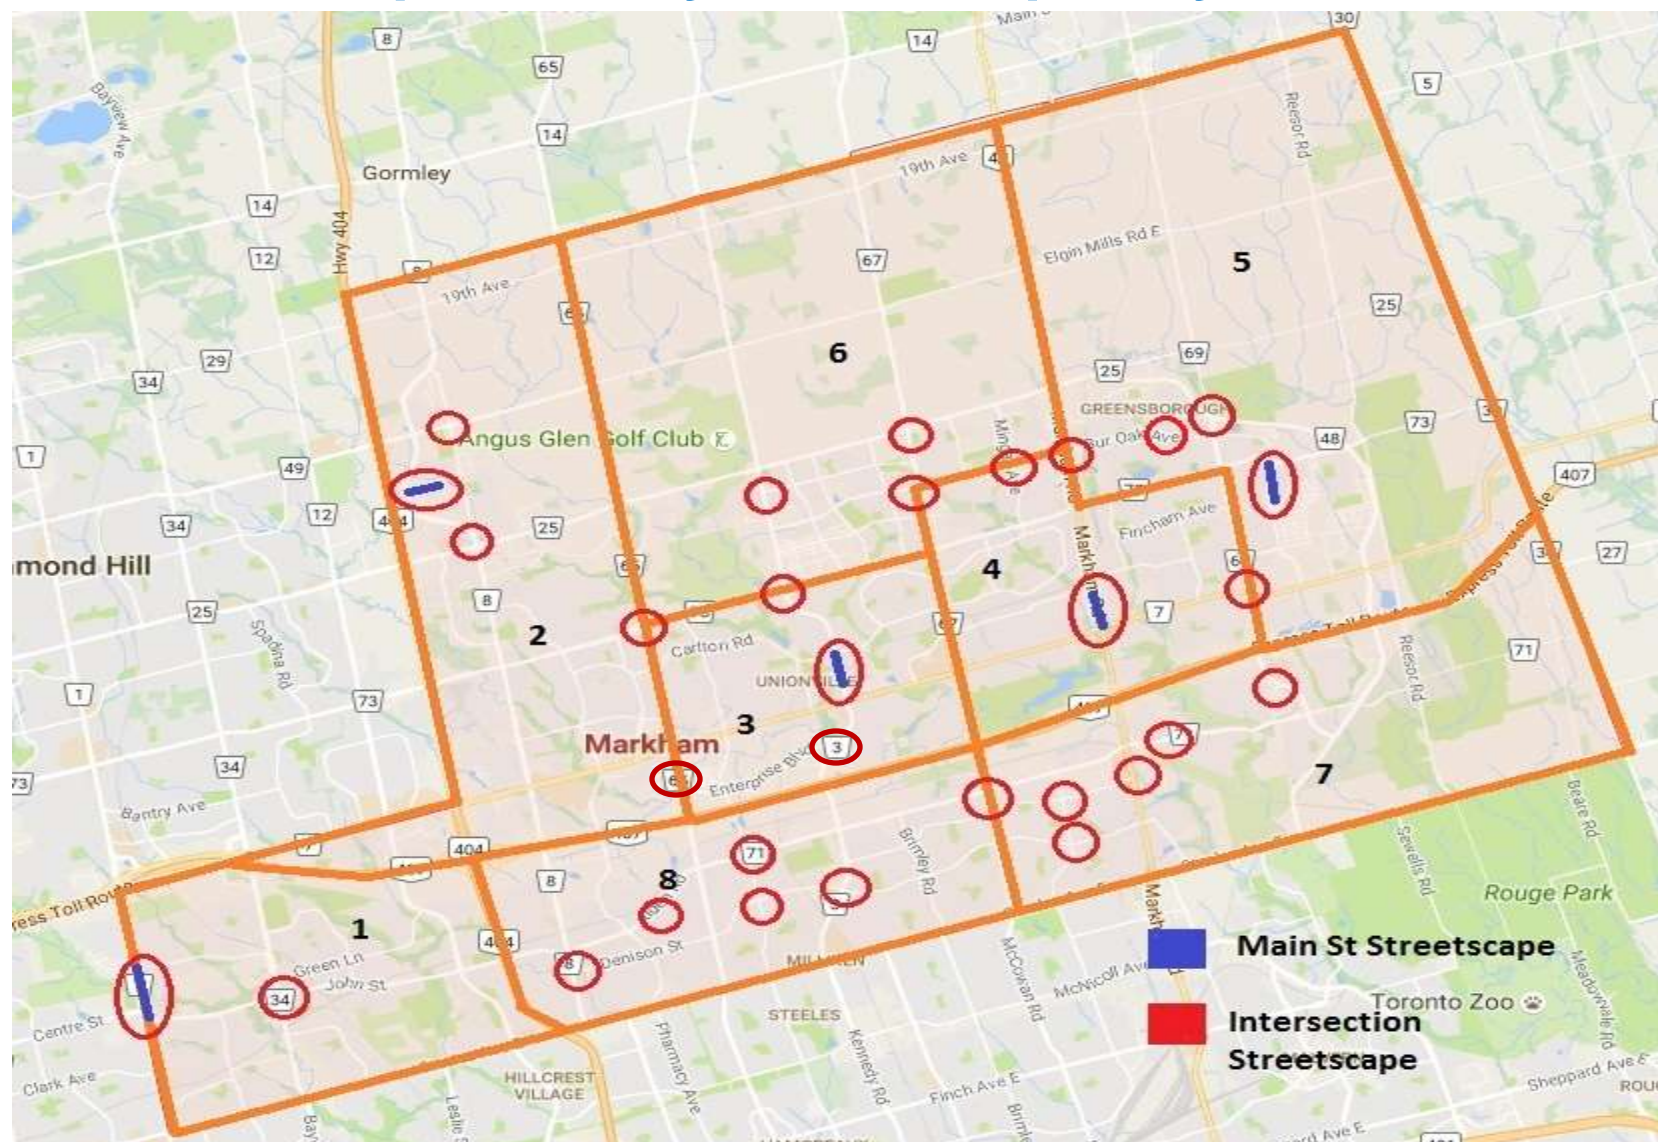

Birchmount Road and
14th Avenue

Current City Maintained Streetscapes by Ward

Proposed City Streetscapes by Ward

Recommendations

- Revise the current City deployment of traditional elements in areas of identified opportunity in favor of Citywide large self watering planters at high impact intersections
- Continue deployment of materials on historic main street areas to allow beautification within the space limitations
- Add traditional streetscape elements in 2 newly identified business districts.
- Discontinue current deployment of barrels from private businesses.
- Offer surplus barrels and baskets to Sustainability and Recreation for Community gardens and camps.
- Operating costs will be monitored in 2017 with any savings being redirected to gateway beautification in 2018 aligning with future gateway master plan.

Thank-You
