

January 8, 2010

The Corporation of the Town of Markham
101 Town Centre Blvd.
Markham, ON
L3R 9W3

Attention: Kimberley Kitteringham, Town Clerk

Dear Ms. Kitteringham:

**RE: Markham Stouffville Hospital Expansion/Renovation Project
9th Line Truck Traffic**

We wish to formally make a presentation to Part A, Development Services Committee on January 19, 2010 to address an issue that has been raised through the Cornell Advisory Group.

A request has been made that Markham Stouffville Hospital (MSH) consider restricting use of all MSH related construction trucks from using 9th Line.

We have retained BA Group, a well recognized traffic impact consultant to prepare a presentation to address the appropriateness of using 9th Line, to identify alternative routes that could be used, to assess the alternate community impacts and environmental and cost impacts associated with such alternative routes.

Yours very truly,

A handwritten signature in blue ink, appearing to read "Brian Cosburn".
