

## Pedestrian Countdown Signals on Regional Roads

The following criterion was used for eligibility of Regional Intersections in the Town of Markham:

- Over 100 pedestrians in an 8-hour period
- Close to a school and/or senior centre
- Countdown heads would only be used for crossing the major street
- Locations where both approaches are major streets require countdown heads in all directions. These locations are **bolded**.

The following Regional intersections in Markham have been installed with PCS as of June 2007:
