Dear Ms. Birrell,

**Re: 2006 Annual Compliance Report**

I am pleased to provide you with a copy of The Regional Municipality of York's second *Annual Report on Compliance with the Minister's Conditions*. This is a regulatory filing, mandated by the Minister's letter of October 2004, and is included among the conditions placed on various YDSS projects.

Thus far, 35 of the conditions have been met with York Region exceeding Ministry requirements in 18 instances. The remaining conditions will be fulfilled as the projects progress.

York Region is justifiably proud to have gone above and beyond where possible in respect of the requirements typically associated with infrastructure projects such as these. The 2006 Annual Report documents the commitment and integrity demonstrated by York Regional Council to protecting the interests of the public and the environment.

In addition to this document being sent to you, a copy of the 2006 *YDSS Annual Report on Compliance with the Minister's Conditions* is now available on the Region's website ([www.york.ca](http://www.york.ca)). If you have questions regarding the Annual Report or its contents, please do not hesitate to contact York Region's Manager of Engineering – YDSS, Laura McDowell, at 905-830-4444 ext. 5077.

Sincerely,

A handwritten signature in black ink, appearing to be "B Macgregor", enclosed in a circular scribble.

Bruce Macgregor, P.Eng  
Commissioner of Transportation and Works  
The Regional Municipality of York
