EXPRESSION OF INTEREST TO INSTALL SANITARY SEWER SYSTEM ON ROBINSON STREET LANEWAY

To: The Council of the Corporation of the Town of Markham

From: Property Owners on Robinson Street

Re: Expression of Interest to Install Sanitary Sewers on Robinson Street

We, being the owners on Robinson Street, request the Town of Markham to install a sanitary sewer on Robinson Street to service our property. It is proposed to convert the servicing from our current private septic tank system to a public sanitary sewer system.

We understand that the residents will be required to pay the Town for the actual full cost of the design and construction of the public sanitary sewer collection system. We understand that the Town will provide a cost estimate for the work to the residents.

We further understand that the sewer installation by the Town will include providing a sanitary service connection up to the property line. Connection from the property line to the dwelling plumbing system will not be included in the Town works or cost provided to the owners. The property owners will need to arrange and pay for connection from the property line to the house at their own expense.
